## Level 2A Universal Instruction Support Membership

This membership will provide initial training on the EMLSS structure, provide support on strategies related to effective universal instruction, and provide district/schools customized support and coaching based on their specific needs. The work of this membership could focus on either academics/instruction or SEL/behavior. The membership could be purchased at the district and/or school level and would include:

- Five cumulative days of customized support/coaching based on needs identified with CESA support in one of the following areas:
  - Shared Leadership
  - Academics
  - SEL/Mental Health
  - Behavior
  - Academic and Career Pathways
- Up to five attendees at Universal Professional Learning Networks. Each of the five attendees could choose the same network or all choose a different network (math, literacy, science, intervention, behavior). (If exceeding five attendees, the standard network fee would apply.)

## Level 2B Targeted Instruction Support Membership

This membership will provide training for appropriate personnel on Tier II supports, provide support on strategies related to effective targeted instruction, and provide districts/schools customized support/ coaching based on their specific needs. This membership could be purchased at the district and/or school level and would include:

- Up to five attendees at EMLSS 201 (Digging Deeply into Tier II) training at no cost (one day)
- Five cumulative days of customized support/coaching based on needs identified in EMLSS training. This could include:
  - Enhancing a strategic assessment system
  - Creating and using data protocols to enhance Tier II instruction
  - Creating structures to address Tier II needs
- Up to five attendees at Targeted Professional Learning Networks. Each of the five attendees could choose the same network or all choose a different network (intervention, behavior). (If exceeding five attendees, the standard network fee would apply.)
- Up to five attendees at Monthly PD Snapshots (virtual and recorded)
