## 2025-2026 Special Education Itinerant Services

Project Codes:  
 483-487, 489

The Itinerant Services program provides in-district service to students with hearing, vision impairments, as well as occupational and physical needs. Twenty-three of twenty-six districts in the CESA 4 region purchase itinerant services!

Direct service includes face-to-face teaching and evaluation or therapy provided to a student or in small groups. Indirect service includes testing, development of IEPs, attendance at IEP meetings, and consultation with school staff, families or medical personnel.

Estimated costs for each itinerant program area are based on current caseload and anticipated units of service (1 UOS=15 minutes) or a day rate depending on program for the upcoming school year. Itinerant Service will be billed monthly beginning in September 2025 and costs will be recalculated throughout the year as more accurate caseloads are generated.

<b>CESA 4 Itinerant Services</b>
<b>#483 Educational Audiology (IEP Mandated Activities)</b>
<b>#484 Hearing Impairment</b>
<b>#485 Vision Impairment</b>
<b>#486 Occupational Therapy</b>
<b>#487 Physical Therapy</b>
<b>#489 Orientation and Mobility</b>

Units and costs shown on the Master Contract are estimates and are subject to change based on enrollment at the beginning of the upcoming school year.

Services are dependent upon provider availability

<b>Additional Educational Audiology Services</b>
In addition to Educational Audiology services required by a student's IEP, districts may purchase (28) units = 1 day of service for activities not related to IEPs including but not limited to: <ul style="list-style-type: none"> <li>• Hearing screenings and/or follow-up screenings: for school-aged students from Child Development Days and for difficult-to-test populations</li> <li>• Classroom amplification recommendations, installations, and maintenance</li> </ul>
